

## Table of Contents

### IRANICA JOURNAL OF ENERGY & ENVIRONMENT

---

Volume 7 Number (3), 2016

---

- 1 Investigation of an Offset Finned Solar Air Heater Based on Energy and Exergy 212-220  
*S. Rai, P. Chand and S. P. Sharma (India)*
  
- 2 Evaluation of methane adsorption on the modified zeolite 13X 221-225  
*M. Anbia, A. Sedighi and S. Salehi (Iran)*
  
- 3 Performance of Closed Cylindrical Parabolic Trough Collector for Solar thermal application 226-232  
*H. B. Kulkarni (India)*
  
- 4 Prediction of the Effects of Combustion–Generated Pollutant on Human Health: Mathematical Models and Numerical Solutions 233-242  
*M. G. Sobamowo (Nigeria)*
  
- 5 Steam Explosion as the pretreatment method for ethanol production from orange peel waste 243-246  
*J.M. Patra, S. S. Panda and N. K. Dhal (India)*
  
- 6 Heavy metal remediation potential of a tropical wetland earthworm, *Libyodrilus violaceus* (beddard) 247-254  
*E. O. Dada, K. L. Njoku, A. A. Osuntoki and M. O. Akinola (Nigeria)*
  
- 7 Investigations on Performance and Emission characteristics of Mix Oil Biodiesel Blends 255-261  
*Sanjay Mohite, Sudhir Kumar and Sagar Maji (India)*

- 8 Trend of Six Physiochemical Water Quality parameters between 2012 and 2015 of the Marang River, Terengganu, Malaysia 262-267  
*N. Hairoma, M. G. Barzani and M. E. Toriman (Malaysia)*
- 9 The reduction of oxides of nitrogen emissions in a single cylinder CI engine using cool Exhaust Gas Recirculation system 268-273  
*M. V, Kumar, A. Veereshbabu, P. R. Kumar and B. Narendra (India)*
- 10 BaBiO<sub>3</sub> assisted photodegradation of malachite green dye under visible light irradiation: Adsorption and degradation kinetics 274-281  
*K. Sharma\*, S. Jain and U. Chandrawat (India)*
- 11 Decolorization and degradation of Lignin of Pulp and Paper Mill Effluent by Ligninolytic Bacteria 282-293  
*A.K. Ojha and Markandeya (India)*
- 12 Bulk liquid membrane process for the transport and kinetics study of Malachite green from textile wastewater 294-303  
*M. Sathya, G. Muthuraman and S. Elumalai (India)*
- 13 Adsorption of CO<sub>2</sub> on Zeolite 13X Prepared from Modified Natural Iranian Kaolin 304-307  
*V. Garshasbi, M. Jahangiri and M. Anbia (Iran)*
- 14 Synthesis of Biodiesel from Palm Kernel Oil using Mixed Clay-Eggshell Heterogeneous Catalysts 308-314  
*M. A. Olutoye, O. D. Adeniyi and A. S. Yusuff (Nigeria)*
